DOORS AND WINDOWS

THANK YOU FOR
CHOOSING THE ORIGIN
INTERNAL DOOR

Welcome to Origin...

Origin is the UK's leading manufacturer of aluminium architectural solutions.

Now award-winning and operating internationally, Origin began in 2002 as a family company dedicated to the design, creation and manufacture of the UK's best quality doors, backed by uncompromising levels of service.

Cousins, Neil Ginger and Victoria Brocklesby, have since worked relentlessly to perfect the design and functionality of bi-folding doors, and to create and maintain the highly respected reputation for quality and service that they have today, while expanding the range to include Entrance Doors, Internal Doors, Sliding Doors and Windows.

As the business has continued to grow and diversify, the foundations of family ethos, pride and ownership in all stages of production firmly remain.

Thank you for choosing Origin.

INTERNAL DOOR
MAINTENANCE INSTRUCTIONS

Maintenance Instructions...

Your Origin Doors contain mechanical moving parts that will need to be lubricated periodically. Lubricate using silicone spray or grease and wipe away any excess with a non-abrasive cloth.

Routine Care of your Origin Doors...

Powder coated aluminium profile

Use a light, soapy solution (washing up liquid is not recommended) and non-abrasive cloth to wipe dirt from the doors. Avoid using an abrasive cloth such as a scouring pad as the doors can be scratched. Do not use solvent based cleaning products. In swimming pool environments, the surface of the doors should be washed down with fresh water on a weekly basis.

Seals

Use a light, soapy solution and non-abrasive cloth to gently clean these.

Do not use solvent based cleaning products on the seals.

origin

If you would like any aspect of the door operation explaining to you, please call or email a member of the team using the details below.

A close-up, high-angle photograph of a dark-colored window frame. The frame is composed of several intersecting lines, creating a geometric pattern. In the center, there is a handle and a lock mechanism. The handle is a dark, cylindrical shape with a textured grip. The lock is a circular component with a keyhole. The background is a solid dark color, making the metallic and dark frame elements stand out.
